

DESIGNED TO IMPRESS

Flame technologies from Glen Dimplex Heating & Ventilation

WELCOME

Hello, we bring unparalleled expertise in flame technology to your design. From the most convincing to the world's favourite electric flame effects, through to high-efficiency gas fires for striking spatial room layouts that seamlessly blend with high-end contemporary interior design. As part of the Glen Dimplex Group, we are the market leader in electric heating appliances in Europe and also a leading player in decorative electric and gas fires. We have our own R&D, design and manufacturing facilities across the British Isles, as well as a viewing studio in London. You will probably know us through our leading brands which include Dimplex, Faber, Valor and Campa.

Dimplex has nearly 70 years' experience in developing electric heating products. The brand leads the way for innovative product development and industry insight, creating attractively-designed appliances that create comforting environments whilst being efficient, reliable and durable.

Faber is a dominant brand in the premium gas market across Europe. With a reputation for innovation in both technology and design, the brand delivers the highest quality build and finish, offering a diverse range of gas fire types, sizes and styles, fulfilling even the most challenging design briefs.

To make an appointment to view a selection of working fires at our London studio at Charlotte Road, Shoreditch please call **0800 028 6122** or email **pre-sales@glendimplex.com**

THE ULTIMATE DESIGN PLATFORM

As a clean, easy to maintain, low operational cost alternative to a real fire, Opti-myst® technology uses water to generate a cold, completely safe vapor which is lit and moved to recreate the flicker of flame and wisps of smoke in 3D, delivering a warm welcome all year round.

CASSETTE 500 / 1000

- No limitations to your design
- Connect cassettes together
- Plumbed option

opti-myst®

DCDimplex®

RETROFIT VERSATILITY

CASSETTE 400 / 600

- Where space or options are limited
- Integral unplumbed water tank

opti-myst®

DC Dimplex®

AN ILLUSION OF FIRE

A stunningly realistic electric flame effect combining real fire footage displayed on a high definition LCD screen and LED logs, merged by a unique illusory technique to give the impression of large flickering flames, smoke and burning embers accompanied by the crackling sounds of a fire.

PGF 10/20

- High definition virtual fire
- Maintenance free
- Zero clearance needed for built-in applications

Opti-V®

ASPIRATIONAL GAS FIRES

Delivering high concept design, fused with innovative technology and the highest build quality, Faber is a creator of versatile, aspirational gas fires for premium residential and commercial projects.

MATRIX

- Modular gas fires
- Versatile design for an individual look
- Almost 'trimless' smart construction

ASPECT PREMIUM

- Divide a room
- Minimalist see-through design
- Asymetric build for unusual spatial constructions

RESPECT PREMIUM IC/OC

- Frameless corner and around the corner fires
- Create a centrepiece installation
- Increase the feeling of space
